MEMORANDUM FOR: Chief, Ballistic Missile and Space Division, OSI

ATTENTION: [REDACTED]

THROUGH: Chief, Requirements Branch, Reconnaissance Group, CGS

FROM: Chief, CIA/PID (NPIC)

SUBJECT: Mensural Data on the Towers and Ready Buildings at
Launch Complex G1 and G2, Tyura Tam Missile Test Center

REFERENCES: (a) Requirement C-SI-4-81,415
(b) CIA/PID Project C 359-64

1. This memorandum is in response to your requirement dated 18 May 1964 which requests dimensional data on the towers and ready buildings at Launch Complex G1 and G2, Tyura Tam Missile Test Center.

2. The towers located between the launch pads and ready buildings at G1 and G2 are 110 feet high. It is felt that this measurement is accurate within plus or minus 10 feet. The limitation placed on this mensural data is because of the difficulty in locating the base of the tower from which to measure the shadow. The width of each tower is approximately 25 feet.

3. The ready building behind G2 has an overall dimension of 175 by 125 feet, and its center section is 75 feet wide and approximately [REDACTED] The lower sections on both sides are 25 feet wide and approximately [REDACTED] The shadow cast by the front of the bunkered ready building behind G1 indicates the structure and earth covering extends approximately 15 feet above ground level. The interior height of this earth covered building cannot be determined.

4. Mensuration data was provided by NPIC/TID/TAB from [REDACTED]

5. The photo analyst on this project is [REDACTED] who may be contacted on extension [REDACTED] should you have any further questions concerning this project.

6. This project is considered to be c [REDACTED]
